- **Mr. Adesh Gokhale**
Chairman, Advisory committee FCHL
- **Dr. S. N. Kanetkar**
Secretary, DES
- **Dr. K. Ashok Rao**
Principal, V.R. College, Nellore
Member, Advisory committee FCHL
- **Prof. Y. V. Ramireddy**
Dept. of Chemistry, S.V. University
Member, Advisory committee FCHL
- **Mr. A. Venugopal Naidu**
Member, Advisory committee FCHL
- **Dr. Sachin P. Khedkar**
Director, DES FCHL

Organizing Committee

Dr. Lakshmi Jayasri Akkiraju

Organizing Secretary
Dy. Director (Academics) DES FCHL

Prof. A. Jyothi

Co-organizing Secretary
Dean, School of Sciences
SPMVV, Tirupati

Dr. M. Somasekhara

Co-organizing Secretary
Admin officer
DES FCHL

Organizing Committee members

Prof. R. Usha, Dept. Of Biotechnology, SPMVV

Mr. D. Akshay, Trainer, DES FCHL

Mr. A. Somasekhar, Estate Officer, DES FCHL

Mr. R. Maheswar, Accounts & Admin., DES FCHL

Mr. L. Santhosh, Chemist, DES FCHL

About DES FCHL

Deccan Education Society (DES) is a pioneering Society and trust working in the field of education for more than 138 years, a Society with a great history, with the likes of Lokmanya Balgangadhar Tilak and Gopal Krishna Gokhale as its Council Members. Establishment of **Fergusson Centre for Higher Learning** (FCHL) at Renigunta (A.P.) is a milestone in the history of Deccan Education Society. FCHL provides programmes in Industrial Safety, Web designing, Office Automation, Food Safety and Food Quality. We provide good quality education in various disciplines to students to enable them to acquire the necessary skills for a career in industry.

The institute has set up '**Fergusson Testing Laboratory**' (FTL) for testing Food and Water and the laboratory is **NABL accredited**.

Fergusson Centre for Higher Learning**

In Association with

**School of Sciences
Sri Padmavati Mahila Visvavidyalayam
(Women's University), Tirupati**

Convener

Dr. Sachin P. Khedkar

Director, DES FCHL

About Workshop

Water quality is vital to the health, social and economic well-being of the people. Testing water sources is a critical step for anyone to safeguard against potential health and environmental risks. Food testing ensures food products are safe for consumption with no contaminants. Chemical and biological contamination in food plays an etiological role in various human diseases. Microbiological testing of food ensures monitoring and hence prevention of food poisoning outbreaks. Currently adulteration has become a growing problem worldwide in the food industry and for consumers. Testing for the presence of adulterants in food items plays a vital role in ensuring human health.

The primary objective of this two-day workshop is to provide hands-on experience in testing different types of water and food products through a series of lectures and also gaining knowledge on quality control and assurance.

Themes of Workshop

- Need and Significance of testing different types of water.
- Industrial standards.
- Sampling procedures and Good Laboratory Practices.
- Documentation and record keeping.
- Adulterants in milk and milk products.
- Verification, maintenance and calibration of equipment.

Infrastructure of FCHL

Previous Workshops:

Registration Fee

Students/Scholars: Rs. 800/-
Academicians: Rs. 1000/-
The registration fee includes workshop handouts, working lunch, tea and certificate.

Account transfer details:
